

STEFAN KALMERS

VOICESINTIME

ROCK & JAZZCHOIR MUNICH

Rich sound • relaxed groove • great mood

These are the hallmarks of this award-winning ensemble.

Under the direction of Stefan Kalmer, VoicesInTime offers sophisticated a cappella choral music, which gets under your skin, draws you in, and gives the audience an unforgettable concert experience.

VoicesInTime is one of the most successful choirs of its kind in Europe. The rock and jazz choir was founded by Stefan Kalmer in 1996 and remains true to its principles in its third decade: varied programs of always demanding arrangements - with world hits, insider tips, and pieces which sometimes unite different styles to overcome common genre boundaries such as rock, pop and jazz. The audience gets to hear recent songs from Rag 'n' Bone Man, Adele or Ed Sheeran, meets the greats of pop and jazz history like Leonard Cohen, Meat Loaf, The Bangles, The Real Group or Billie Holiday and experiences Schubert, Goethe and Shakespeare in a whole new, surprising way. From energetic rock beats and relaxed latin groove to a feel-good swing - catchy melodies and multi-layered harmonies merge in a transparent sound.
