

With its high-class, sophisticated, modern, entertaining and surprising sound, Stefan Kalmer's Rock&Jazz choir VoicesInTime offers its audience a cappella music at the highest level and makes every concert a very special event.

For 20 years VoicesInTime has been presenting entertaining and high-quality arrangements of famous songs and has left its mark as one of the first choirs to mix the genres Rock, Pop, Jazz and Crossover. Today VoicesInTime is considered to be one of the best representatives of this genre in Germany and Europe, winning numerous national and international awards.

After having travelled to countries like Cuba, South Korea, Albania, Denmark and Luxembourg in the past few years, VoicesInTime is visiting China for the first time in 2016. Nine concerts in the Shanghai area will crown the choir's 20th anniversary. Another highlight of the year will be the anniversary concert in Munich on 24th July, offering a varied programme featuring modern hits, classics and a lot of specials.

VoicesInTime's profile is unique and its repertoire is large. Originating from well-known songs played on the radio, the audience will recognise an exceptional arrangement of music that reminds them of the well known, but creates something that has yet to be heard. Pop songs by Pharrell Williams, Taylor Swift and Adele alternate with original and sophisticated arrangements of Rock hymns by Meat Loaf, Toto, Alice Cooper or Rammstein.
